THERMOWELLS

Application

- For places requiring a sealed system, effectively isolate the medium and instruments so as to prevent the liquid leaking out of the system when changing of the thermometers
- For places with strong vibrations, the thick material effectively protects the thin material of thermometers stems, thus prolonging the lifespan of the instruments

Specifications

- Type: Straight, taper, lag extension, flanged
- Design: Solid machined or welded or barstock
- Material: Brass, stainless steel 304, 316, 316L
- Length: 2.5", 4", 6", 9", 12", 18", etc
- Bore: 0.7mm diameter standard for the length over 6", others to match the stem of the thermometers
- Connection: 1/2" NPTF x 1/2", 3/4" or 1" process connection

Remarks: We fabricate locally according to customers' requirements / provided information.
