

## Pressure Calibrator (TESZ - TPP40)

### Applications:

Ideal tool for checking & Calibration of Pneumatic Digital Indicators, Manometers, Pressure Transducers / Transmitters, Pneumatic Loops etc.

### Features:

- Heavy Duty
- Rugged Field Use/ Calibration at Site
- Compact, Light Weight, Hand Operated
- Combined Vacuum & Pressure Pump with Pressure / Vacuum Changeover option
- Fine Adjustment Vernier to realize up to 1 mBar Resolution / Sensitivity
- Very Low Leakage rate
- Flexible Nylon Hose (1 Meter) with Swivel Adaptor to connect devices under test
- Traceable Calibration Certificate Included
- Comes with carrying case & test gauge

## **Detail Specifications**

<b>Maker</b>	TESZ®
<b>Model</b>	TPP40
<b>Range</b>	-0.9 Bar Vacuum to 40 Bar Pressure
<b>Medium</b>	Air
<b>Sensitivity / Resolution</b>	Up to 1 mbar
<b>Test Connection Port</b>	1/4" (F) BSP
<b>Gauge / Indicator Connection Port</b>	1/2" (F) BSP
<b>Instrument Dimensions (excluding gauge)</b>	230 x 140 x 65 mm (L x B x H)
<b>Instrument Weight (excluding gauge)</b>	Approx. 800g
