NAUTICAL- COMPASS FLUID

Applications:

A liquid compass is a compass that is filled with fluid. The fluid within acts as a buffer at the same time absorbs any shock and vibrations. This is to avoid any damage done to the elements in the liquid compass. It also helps to stabilize the compass needle to make the device easier to read. Many compasses are usually liquid filled.

Specifications:

Compass Fluid contains alcohol concentration.

This compass fluid is compatible with most liquid filled compasses. It is important to note that this compass fluid may not be compatible with some compasses, user should decide on the usability of this product.

DANGER: Harmful or Fatal if swallowed; Combustible. Keep from heat, sparks, open flame, or other ignition sources. Avoid breathing of vapor or contact with skin. **STORE OUT OF REACH OF CHILDREN.** Do not take internally. Close tightly after using. Use with adequate ventilation.

FIRST AID: If taken internally, do not induce vomiting; call a physician immediately.

WARNING: This container is not to be reused.
