

Portable Multi-gas Detector - BH-4S

Gas sampling method: Natural diffusion

Detecting gas: Combustible gas, H₂S, CO, O₂

Accuracy: $\leq \pm 5\%$ FS

Response time: T < 30s

Power source: DC3.7V Li-on battery, 2000mAh

Explosion-proof grade: Exib IIB T3 Gb

Working environment: -20°C ~ 50 °, <95%RH (no dew)

Gas Sensor Life: 2 years

Protection Grade: IP65

LCD displays real-time and system status.

LED, audio and vibration alert for gas leakage, fault and low voltage.
